

## CAMERON EDUCATION AND INNOVATION CENTER

*Recruiting, retaining and growing professionals to meet our community's healthcare needs*

### VISION

Cameron Memorial Community Hospital is extending its campus to include a state-of-the-art Education and Innovation Center that will provide access to critical health education and training to ultimately meet the region's growing healthcare needs. The Cameron Education and Innovation Center's mission is to create a hub of healthcare expertise that attracts students, retains professionals and grows knowledge in Steuben County and the surrounding areas. This will be accomplished through partnerships with Trine University, local schools, first responders and community members to create unique programming in high-demand healthcare professions, such as nursing.

***"As one of just a few remaining independent critical access hospitals in Indiana, Cameron is committed to strategically investing in our organization's growth so we can be here to care for our community for generations to come. The intent of this investment is to reach beyond the walls of our hospital and recruit, grow and retain critical healthcare providers in our community."***

Angie Logan, CEO, Cameron Memorial Community Hospital

### PROJECT DETAILS
